

TopChip

Engineered Wood Chip Playground Safety Surface

It's what's on the surface that counts.

Description

TopChip is an engineered wood chip made from 100% recycled, untreated timber. Not only does TopChip look amazing as a playground safety surface it is also wind-resistant and air-dried for dust resistance.

-  Up to 3 metre critical fall height
-  Air dried to eliminate dust
-  Wind resistant design
-  Meets safety standards
-  Environmentally friendly
-  Free draining and quick drying

Specifications

Product type	Engineered wood chip
Particle size	8 – 45mm
Critical fall height (CFH)	Up to 3m when installed at 300mm depth
